Protecting People Place & Planet

ANCIENT POWER ENERGY TOOLS

made by Professor Russ Price

Introduction to the Creator

Russ Price is a Principal Participant of Foundation 55 Foundation. Russ's background is an interesting one.... always in the field of **PROTECTION**. A former SBS Commando & bodyguard, Professor of Shotokan Karate and all-round creative being, Russ is now focussing on **Protecting People Place & Planet** using the wisdom of his ancestral heritage.

ANCIENT POWER ENERGY TOOLS, call upon Russes' **direct ancestral Druidic roots**. Russes' great-Grandfather, **Dr William Price** (born in Wales 1800) was a larger-than-life man of his time. The cottage in which he was born, was called **"The Land of the Trees"**.

Dr Price was an inducted **medical surgeon** at the age of 21, but also a **Grand Arch Druid**. He was a famed healer, crusader of political reform, an eloquent activist & creator of the first national health service in the British Isles. In modern terms, he was the father of Cremation in the UK (a time when it was illegal to cremate the deceased & body snatching from graves was rife). To this day, a statue exists in Llantrisant, Wales, paying homage to Price & his service to community.

*Grand Arch Druid-
Dr William Price*

Statue in Llantrisant town centre.

Dr William Price was the inspiration for the character of **Doctor Doolittle**; the man who spoke to the animals. He was also a man who not did not believe in oppressive systems of government, which undermine humanity, our rights for freedom, sovereignty, health & abundance for all.

Dr Price died whilst sipping a glass of champagne at the age of 93. 20,000 people attended his cremation service.

Protecting People Place & Planet

Forward to now, his Great Grandson Russ Price, the only grandson of direct lineage. Professor Russ Price, like his Great Grandfather, is also a man of renown & outside of the box. It is perhaps of little wonder that Russ is creating **ANCIENT POWER ENERGY TOOLS, to harness the power & knowledge of the ancients, to protect us & create abundance & sanctuary**, in a modern world that seems fit to poison every many & creature, without their consent (& for many, without their knowledge).

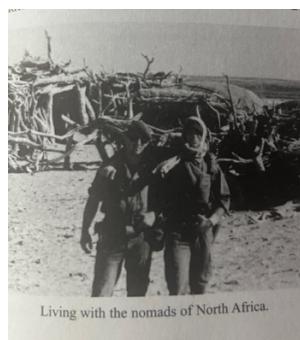

Russ tests & stands behind the ancient power of his creations. Together with his partner Penny (earthhealer & leyline harmoniser), the knowledge of where to place these **ANCIENT POWER ENERGY TOOLS** has extra powerful purpose. Price creates these tools on a highly paramagnetic property of abundant energy called Billabong, in the hinterland of Noosa, Queensland Australia. Its Prices' own version of **"Land of the Trees"**. The power of this healed & activated location becomes the benefit of all those who possess his creations. **These tools have the power to upgrade your & your properties energetic signature.** That's **powerful protection**, of the best kind....**the vibrational kind.**

Like his Great Grandfather, Russ loves his sovereignty, a good smudge stick & sacred circle gathering, but fortunately he has not taken up drinking champagne...yet ☺

Protecting People Place & Planet

Energy Broadcasting Light Tools & Electroculture

All Products come with a personal message for the new custodian.

1. Orgone/Organites

Origin: Orgone is a natural form of energy that we all need to balance our body and spirit. Orgone can be created through natural methods such as sunbathing or the emissions from the earth from a forest floor. It can also be artificially created using Orgone accumulators (orgon organites) to balance out disruptive energies from electronics or other sources of electromagnetic fields (EMF's).

Positive Orgone energy can help with motivation, focus, energy flow, sleep, and overall well-being by combating negative electromagnetic fields (EMF). Our range of organite tools, are designed to mitigate the negative effects of mobile phone towers and other sources of electromagnetic frequency radiation or EMFR (such as powerlines, transmitters & geopathic stressors).

ANCIENT POWER ENERGY TOOLS tests each of our Organite creation. A powerful Organite creates a vortex spiral above it, drawing the energy down into the organite & out through Mother Earth for transmutation. All our original creations are sealed & signed. Look for this unique feature.

Materials: Our organites are made with a mix of resin, metal, and crystals and look like hockey pucks/ domes or flying saucers (depending on the size & type). Real organite contains 50% metal, uses quality crystals & resin (not plastic cases). Crystals are based upon specific purpose and can be made specifically for individual/property needs. In understanding the basic workings of an organite, when the resin hardens, it compresses the crystals and this causes an electrical charge that amplifies its power. Each of our organites include crystals that have been cleaned, energetically cleansed & activated for their unique power & purpose.

More information can be found: The original research on orgone was conducted by Wilhelm Reich (1887-1957).

<https://orgonevibes.com/orgonite/> . Slim Spurling is a modern master explains the workings of organite & tensor rings in more detail in his book Slim's Universe. You can also listen to Don and Carol Croft talk about their work at:

<https://www.iheart.com/podcast/256-its-rainmaking-time-31100625/episode/carol-don-croft-orgone-32608785/>

Protecting People Place & Planet

OUR RANGE INCLUDES:

Pocket Power (3.75cm diameter)- Light & perfect for when you are out & about or travelling. Place in your pocket or handbag for EMFR protection.

Power Packs (6.5cm diameter/ 2.75cm HT) radiate golden light. Copper triskelion inserts are useful with water related land issues also. These amazing & beautiful creations can also keep birds away from windows & can gently glow in the dark (especially great for the kids' bedrooms).

Protecting People Place & Planet

Mega Watts (7cm diameter & 3.75 cm HT). As the name suggests, these are a powerful orgonites & wonderful for placing near compromised zones in your home (such as near power boxes, computers, modums etc) and next to your bed. All our clients have experienced significant improvement in their sleep & concentration.

Protecting People Place & Planet

Obloids (double sided 6 cm diameter/ 2.75cm HT). Like a flying saucer with soft edges, these **super powerful** organites have **2 sides** with a larger portion of copper & targeted crystals.

Basic Busta / Tower buster organites. (6 cm diameter) Made solely for purpose & longevity.

Place near the base of water tanks or negative EMFR towers.

2. Pendants

These stunning neckpieces are wearable art & protection in one. Made with resin & woven with copper, Russ lovingly births each piece with care & attention. Perfect for wearing everywhere.

A range of colours available.

Rodin Coil- Small (4cm diameter). Centre can hold different types of crystals for power & purpose.

Rodin Coil- Large (6cm diameter). More suited to men & larger physiques.

Protecting People Place & Planet

3. Tensor rings

Origin: Tensor rings are closed loop coils made from copper wire, designed based on ancient measurements known as cubits by Slim Spurling (USA). They are believed to amplify subtle energy and have various applications, including enhancing personal energy fields, promoting healing, and neutralizing electromagnetic fields (EMFs).

Area of influence: The exact area of influence is not conclusively determined. The influence of tensor rings can be amplified by using them in series, where their fields overlap to create a stronger, expanded field. Tensor rings must be sitting propped above the surface to generate effectively.

Materials: Copper Wire & beads (capacitors)

Stock Items include: (approximately 27cm diameter).

All diameter sizes can be adjusted within the parameters of the cubits measurement.

- **Sacred Cubit (144 MHz)** - Focused on physical aspects of life, this tensor ring helps materialize ideas, attract abundance, and enhance grounding. Known for its vertical energy field, it neutralizes unhealthy energy grids, reduces WiFi radiation, and combats polluted environments.
- **Lost Cubit (177MHz)** – creates harmony of emotion and thought. It has a calming effect and assists with brain balance. Due to its horizontal energy field its more compatible to the Earth, DNA adjustments and etheric elements. It is an excellent companion in meditation, balancing the feminine and masculine energies through its effect on the third, fourth and sixth chakras.
- **Empowerment Cubit (188 MHz)**, believed to enhance personal growth, spiritual connection, and overall well-being by clearing energetic blockages and promoting mental clarity. They are thought to aid in releasing limiting beliefs, connecting with spiritual guidance, and creating a more harmonious environment.

4. Orgone pyramids (made to order only)

Origin: While Wilhelm Reich laid the groundwork with his research on orgone energy, the modern orgone pyramid is an adaptation of his original ideas, developed by individuals who use a combination of resin, crystals, and metal shavings to create these devices.

Area of influence: Large up to 250 metres

Materials: Made with a mix of resin, metal, and crystals. **ANCIENT POWER ENERGY TOOLS** additionally uses copper tensor rings to harmonise energy fields based on ancient cubit measurements.

ANCIENT POWER ENERGY TOOLS prides ourselves on our ability to blend purpose & power, with aesthetic.

Size from 90mm (larger sizes are available)

5. Water/Phone Harmonisers

SMALL (13cm diameter) - Place your water bottle or mobile phone on the harmoniser pad to clear the energetic frequency & uplift

MEDIUM- (18cm diameter)- IPAD, multiple phones, anywhere where you need a larger field.

LARGE- (34cm diameter)- Water filters & laptops will sit on top of this.

This item can also be custom made for creeks/ dams & waterways for earth healing work/s.

Protecting People Place & Planet

6. Earth Towers (Towers of Power)

Origin: Our modern towers are developed in line with the ancient Irish towers which are believed (& witnessed) to act as energy conductors by transmitting subtle energy from the outer atmosphere to the ground into the leylines. In effect they are “silica rich semi-conductors” of cosmic energies.

In line with many researchers’ findings, the soil around towers are highly paramagnetic and enjoy greater fertility. Soil health is greatly amplified & as such, less invasive weeds, pests & soil imbalances occur.

In the location of the Earth Towers, **animals and people experience less disease**. Earth Towers act as wave-guides or aerials for extra-low-frequency (ELF) from high above the earth (Schumann radiation) which able to penetrate water and soil easily around the towers. ***They effectively upgrade the energy signature of their location.***

Orgonites are added to all **ANCIENT POWER ENERGY TOOLS** Earth Towers, to boost stronger power generation. The orgonite contains shungite and selenite which cleanses the energy and stops the buildup of DOR. In specific cases (based on location) **ANCIENT POWER ENERGY TOOLS** also uses other crystals or copper.

Imagine a vortex beam of light coming down from the sky above your Earth Tower as wide as its field of influence. This gives you some idea of its power 😊

Towers Specifications:

Cone and base are made from cement, paramagnetic basalt and magnetize water. The tower cones are created in a special mold. Its dimensional pitch is 52 degrees (the same as the Great Pyramid of Giza)

- A. Small Tower** approx. 300- 400mm tall. Expected Area of Influence: 50 metres. Includes 1 Orgon orgonite
- B. Medium Tower** approximately 600mms tall. Expected Area of Influence: 100 metres. Includes 2 Orgon Orgonites
- C. Large tower** approximately 900mm – 1500 mm tall. Base is constructed from terracotta pipe or cast material (alike cone construction). Includes 2 Orgon Orgonites Expected Area of Influence: 250m radial influence.

ALL EARTH TOWERS ARE INSTALLED AS PART OF THE TOWER COST ***(location based up to 45minutes drive from workshop). They are also located specifically on (or as close as possible to **LEYLINES**).

An onsite visit & property profile assessment by our in house Earth healer & leyline specialist, Penny, is required. The cost of this visit, including a basic property report is from \$444 (dependent of property size).

Small Earth Tower 300 – 400mm HT) Medium Earth Tower (600mm Ht). Large Earth towers (900mm +)

Research:

For more information please read works by Philip Callahan at

<https://malagabay.wordpress.com/2016/03/09/philip-callahan-and-the-round-towers/>

Yannick Van Doorne is an expert in Europe and in this YouTube talk he speaks about various experiments.

<https://www.youtube.com/watch?v=xlLEa5186cw>

Alannah Moore is an Australian expert who now lives in the UK. She talks about her experiences at these websites. <https://geomantica.com/home/about-power-towers/>

Graeme from NutriTech Solutions in Yandina has developed a set of videos on energy broadcasting using Earth Towers.

Whilst Graeme really focusses on the broadacre farming & scientific benefits to the soil & yields of crops etc, it is interesting to see a real soil & farming health business, using Earth Towers to develop soil fertility, enhance plant growth and yield and prevent pests & disease.

He talks about the importance of knowing the ley lines and a test property that he has been measuring in Applethorp.

7. Copper Ighina Spiral

Origin: Ighina spirals uses electrical currents to stimulate plant growth and reduce pests and were developed by Ighina's Erim as a bioenergetic tool . They draw nitrogen down from the ethers into the plants & roots. They are perfect to boost a plant that is struggling

Area of influence: Small- spirals should be placed south of the target plant with the spiral descending & influence the plant directly closest. Perfect for establishing seedlings or in potted plants.

Materials: These spirals are made from copper wire to specific dimensions.

(*price does not include installation).
